EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes

and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be

submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview

with David J. Cole on February 15, 2005.

The application has been amended as follows:

1. Cancel claims 18-23.

Allowed Claims: 1-17.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the

prior art either alone or in combination disclose or teach of the claimed combination of

limitations to warrant a rejection under 35 USC 102 or 103.

Specifically, with respect to independent claim 1, none of the prior art alone or in

combination disclose or teach of an electrophoretic display comprising an

electrophoretic medium disposed in at least one sealed cavity comprising a plurality of

capsules, each comprising a capsule wall, a suspending fluid held within the capsule

wall and at least one electrically charged particle suspended in the suspending fluid as

Art Unit: 2873

claimed, specifically further wherein the electrophoretic medium comprises a liquid in which the capsules are suspended.

Specifically, with respect to independent claim 11, none of the prior art alone or in combination disclose or teach of an electrophoretic display comprising an electrophoretic medium comprising a plurality of capsules, each comprising a capsule wall, a suspending fluid held within the capsule wall and at least one electrically charged particle suspended in the suspending fluid as claimed, specifically further wherein the electrophoretic medium comprises a liquid essentially free from polymerizable species in which the capsules are suspended.

Specifically, with respect to independent claim 15, none of the prior art alone or in combination disclose or teach of a process for forming an electrophoretic display comprising providing an electrophoretic medium comprising a plurality of capsules, each comprising a capsule wall, a suspending fluid held within the capsule wall and at least one electrically charged particle suspended in the suspending fluid as claimed, specifically further wherein the electrophoretic medium comprises a liquid in which the capsules are suspended.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
